Dear Parent or Guardian,

We are pleased to inform you Wendler will be participating in the Community Eligibility Provision (CEP) program for the 2020-2021 School Year. The CEP program is part of the National School Lunch and Special Breakfast Programs that provides students access to free, healthy breakfasts and lunches. This program includes a full meal. Second meals, a la carte meals or a la carte milk are not covered under the program.

All enrolled students at Wendler are eligible to receive a healthy breakfast and lunch at school at no charge to you or your household, every day of the 2020-2021 school year. Your child(ren) with a primary enrollment at Wendler will be able to participate without having submit a free and reduced meal application.

During the COVID-19 high and middle high-risk models, parents that wish to have their student(s) participate must place an order for meals. Please visit our website at <https://asdk12.org/2020MealPlan> for more information.

If your child(ren) changes schools during the school year to a non-CEP school, you will need to apply for our free and reduced lunch program to see if you qualify for continued benefits. Applications are available online at <https://asdk12.org/studentnutrition>

If we can be of further assistance, please contact us via email at snadmin@asdk12.org or at 907-348-5142.

Sincerely,

Andrew Mergens
