

Journalism & Broadcasting

Media & Broadcasting Foundations

(H8515): Students explore the use of multimedia to tell a compelling story and become competent in Adobe Photoshop & iMovie.

Broadcast Journalism I (H0801): Foundational skills in broadcast journalism are built, including photojournalism, videography, interviewing and storytelling. **English Credit*

Broadcast Journalism II (H0802): Students develop in-depth and technical journalism skills, focusing on thematic news writing and production. **English Credit*

Production Studio Technologies I (H8161): Students will advance their professional video editing skills to produce "Orange Juice," West's video news broadcast.

Production Studio Technologies II (H8162): Students develop advanced skills in video production, editing, lighting and sound techniques. They produce and publish "Orange Juice," West's video news broadcast.

Capstone: Studio Production Live (H8160): Students will put all skills from prior pathway classes to use towards the compilation of a professional portfolio, as well as producing "Orange Juice" as a live broadcast.
