## **REGISTRATION TIPS!**

**Both the student and parent or guardian must create an account.** - You will need two different email addresses to create separate accounts. Students...your school "email address" is NOT a real email address. We do not recommend using it for your registration.

**Are you having trouble logging into your account?** - PLEASE do not create a second account. The Activities Office can assist with resetting your password, updating your email address, and many other issues.

**The online forms must be completed each year by both the student and parent or guardian.** - Sorry! You only have to register once (please don't create a second account if you are having trouble logging in) but the forms have to be completed each school year.
